

# WORLDPAY DASHBOARD

## Easy online access to your Worldpay account

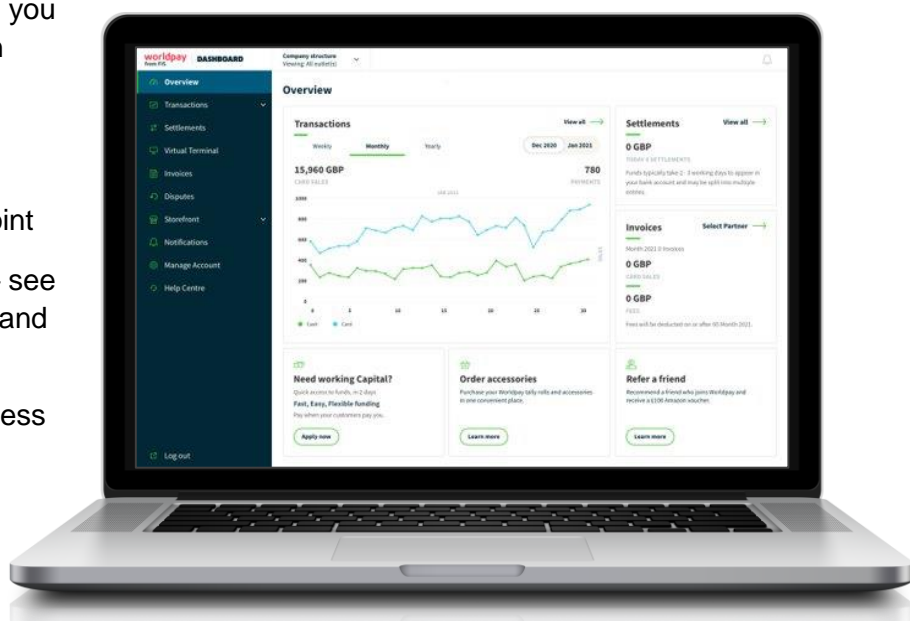

Whether you own a café or an online clothing boutique, managing a small business is a big undertaking. At Worldpay from FIS®, we understand you need solutions that make the complexity of running a business simple.

Worldpay Dashboard is your online Worldpay account, providing you with valuable insights into your transaction data, all in one easy-to-use dashboard.

### Key Benefits

Dashboard's robust portal is designed with your needs in mind, empowering you with tools that can make managing and running your business easier and more efficient.

- Access your account anywhere – all you need is a secure internet connection and a laptop or mobile device
- Your data all in one place – all your Worldpay transaction data is consolidated into a single access point
- Insight to help your business grow – see your busiest period, average spend and best hour, day, week or month
- Stay in control – manage your business details, users, invoices, and your membership options all through Dashboard

Worldpay Dashboard's consolidated functionality is tailored for you on any device type, giving you the power to access your business data at any point throughout your day, even on-the-go.

**Unlock Your Data**

We know how important payments data is to your business, which is why we've unlocked your data at no additional cost, allowing you to take a deeper dive into your payment transactions. Check out all the complimentary features included in your Dashboard account.

- Access and download your transaction history whenever you need it – as far back as 3 years
- View and download your invoices
- Accept multiple currencies and settle in a single currency
- Check your settlements and reliably forecast available funds
- View and compare sales trends with a daily, weekly or monthly view
- Access to your PCI compliance
- Manage disputes and chargebacks with the ability to upload evidence directly to Dashboard
- Digital access to short-term funding
- Integration with your Xero account
- Mobile & tablet friendly design
- Export your data to share or view offline
- Digital access to short-term funding with Worldpay Business Finance

Don't waste time trying to connect the data dots. We make managing your Worldpay data easy by helping you monitor and understand your payments, streamline workflows, and give you valuable insights to help you understand your customers' behaviors and payment preferences.

**Upgrade to Premium\***

We also offer additional value-added services with our premium Worldpay Dashboard membership option\*, which can help take your business to the next level.

- **Multi-User** – add up to 3 additional admin or secondary users to your Dashboard account
- **Virtual Terminal** – allows your business to accept card payments without requiring the physical presence of a terminal or the card

To change your membership type, simply login to your Worldpay Dashboard account and activate your premium membership.

\*Virtual terminal and multi-user functionality are only available with a Premium membership, to which a monthly fee applies.
